***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1-4, 7-17, 34, and 36 are rejected under 35 U.S.C. 102(e) as being anticipated by Kakimi et al (US 6,432,089).

Kakimi discloses a plunger 4, and a reservoir (fig. 2). The plunger has a first member 9, and a second member 8. The external side of the first member 9 is adapted to releasably engage a linear actuation member by means of first and second components 6 and 7.

***Allowable Subject Matter***

3. Claims 18, 19, and 21-24 are allowable over the prior art of record.

***Response to Arguments***

4. Applicant's arguments with respect to the claims have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP
